

How to Authorize Access to Your PG&E Data

Sharing your data is easy. And rest assured that your information will not be shared outside the Energy Upgrade California® Home Upgrade Program., per PG&E security guidelines and protocols.

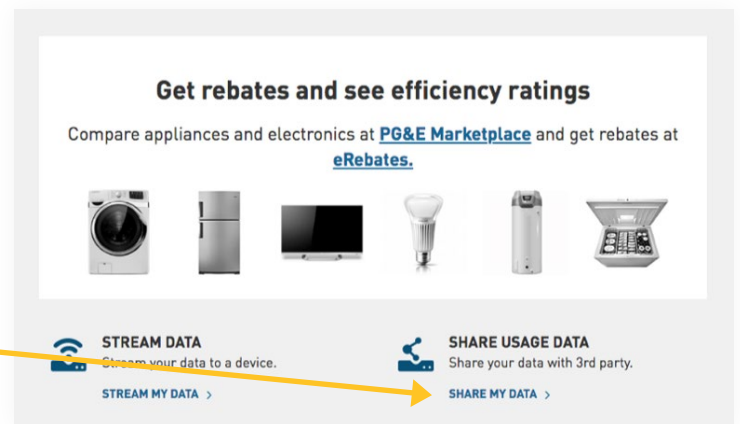

Step 1

Sign in to your account at PGE.com or register your account.

Step 2

Scroll to the bottom of your dashboard and select "Share My Data."

Step 3

Select “Build It Green” under the “Add new authorization” drop down. Click “Next.”

Share My Data

Authorize Access to Your Data

You can authorize a company access to your data. Read the Terms & Conditions carefully before authorizing access to your data. **Please note:** PG&E has not conducted security reviews on the companies participating in this program.

Add new authorization

Build It Green

Partner with PG&E to implement and administer programs that promote private sector innovation and incentivize adoption of green building practice

NEXT
